

DON'T RISK IT!

Australian Refrigeration Mechanics Association – Trade Quality Assurance

Thinking of purchasing or installing air conditioning?

You have the choice of a Certificate III Licensed Tradesperson or a restricted Certificate II holder

CERT III Qualified Refrigeration & Air Conditioning Technician

- Has completed a 4 year apprenticeship
- Legally trained to perform all warranty repair & servicing
- Are highly trained Air Conditioning & Refrigeration Specialists

CERT II Holder - E.g. Plumbers & Electricians

- Only completed a **5 DAY** short course
- Legally **ARE NOT ALLOWED** to perform warranty repairs or servicing
- **ARE RESTRICTED** to installations below 18KW
- **ARE NOT RECOGNISED** in NSW
- **IS NOT** an Air Conditioning & Refrigeration Specialist

“Always insist on a CERT III qualified tradesperson.

The quality & reliability of your system depends on it! ”

*- Kim Limburg
ARMA President*

Use a Cert III qualified Air Conditioning & Refrigeration Mechanic
